TEN CENTS A WEEK

FORMAL

Negotiations for a Settlement

OF THE STRIKE

Were Opened in New York City Yesterday.

SHAFFER AND J. P. MORGAN

Are Among Those Who are Participating in the Conference.

By Associated Press.

New York, July 27.—Formal negotiations for a settlement of the great steel strike opened here today at a conference between President Shaffer and Secretary Williams, of the Amalgamated Association, and J. Pierpont Morgan and a group of associates in the U. S. Steel Corporation. The conference and its movements were secret and no intimation of the result came from any one in authority. It is believed that substantial progress was made toward an agreement and that a formal announcement of the compact for peace will come within a few days. There has been much speculation as to the terms of peace. It is said the strike may be called off and there may be a resumption of negotiations on general labor questions at the point where they were broken off at the Pittsburgh conference. In financial circles, however, the opinion is general that the respective agreement would go no further than that and in itself dispose of serious questions at issue. The conference today resulted from several days of preliminary discussion, all of which are kept secret. Shaffer and Williams slipped out of Pittsburgh, and were in New York several hours before a hint of their presence reached the public. The names of those who participated in the meeting, aside from the leaders, and the place at which the conference is held, are kept from the public.

HILL'S GOOD LUCK.

James K. Hill, of Waterford, Ohio, was in the city this morning and informs us he owned 33 acres of land very near the Engle well, that the Oxford Oil Company had under lease for the past three years up until last Saturday, at which time the rental was due, but for some reason they failed to pay it. Mr. Hill was only receiving 25 cents per acre, and the negligence of the Oxford to pay the rental will be the means of Mr. Hill making several hundred dollars, as he has already refused a bonus of \$300 and a rental of one dollar an acre per month. J. C. Biddle also has 142 acres not a great distance from the Engle well not yet leased.—Review.

LIBERAL VIEWS

Of British Newspapers Regarding the Nicaraguan Canal.

By Associated Press.

London, July 27.—Commenting upon an interview with Lord Pauncefoot, British Ambassador to the United States, published in the United States on July 18, in which Pauncefoot expressed his belief that the Nicaraguan canal treaty between Great Britain and the United States would be signed, "Today" voices the feeling, which is gradually growing stronger in Great Britain, that so long as free use of the canal be given all nations, it cannot be seen why Great Britain's interests are so as to demand more.

"Treaties are not eternal," says "Today," "and the Clayton-Bulwer treaty was negotiated at a time and under circumstances very different from today. It is not to the interest of Great Britain to oppose American aspirations in the matter, seeing that it is not essential that British interests be jeopardized by a concession of American claims, whilst we might be very great losers by persistent refusal to acquiesce therein. It is easy enough to understand why Germany and other continental powers are doing their best to prevent England from giving away, but it is much less easy to see why England should play into the hands of continental powers by opposing the United States."

OTHER NOTES.

A dispatch to the Standard from Capetown says: "Lord Kitchener's return to England might be succeeded by General Bindon Blood."

Drinking places on the Strand yesterday evening were filled with members of Imperial Yeomanry, who astonished their friends by throwing their war medals upon the floor and stamping upon them. These medals were given by King Edward to the Yeomanry. Yesterday morning, in explanation of their anger, a Yeoman alleged that the government was in arrears with their pay and referred to blunders of officials.

Major Taylor and Frank L. Kramer met in the final heat for the half mile circuit championship. Taylor finished like a whirlwind, beating Kramer at the tape by a few inches after an exciting race.

TERRIBLE FALL

Caused the Death of Clark E. Stewart, Formerly of This City.

Word was received yesterday that Clark E. Stewart had fallen from a building in Zanesville and had been almost instantly killed. He was an employee of the Pittsburg Bridge Co., having joined them while they were working on the Putnam street bridge as engineer. He has been at several places in their employ since. How the accident occurred has not been positively stated. It is understood he was tightening a nut on the top of the building when his wrench slipped and he fell backward to his death.

His remains were brought to Coal Run yesterday afternoon and will be interred at 3:30 o'clock today.

The deceased was thirty years of age and leaves a wife and daughter. Besides his parents his only surviving relative is his brother, C. M. Stewart, of the West Side. His brother, Mrs. M. L. Combs and Miss McBride left Saturday afternoon for Coal Run to attend the funeral.

SIGNS

Indicate That an Agitation

WILL BREAK OUT

Against the New German Tariff Bill.

THE PAPERS EXPRESS FEAR

That United States Will Adopt Reprisals on German Shipping.

Berlin, July 27.—All the morning papers devoted much space to the tariff bill. The tone of the majority of conservative papers is that duties have been only moderately increased, not so much as agriculturalists need. Liberal papers emphasize the fact that this tariff bill comes at a time when German industries are already in the throes of the severest crisis and that it can only cause new convulsions in industrial life. These papers express fear that the United States will adopt reprisals upon German shipping and they also point out that Germany's allies, Austria and Italy, must lose a large part of their German trade. Even moderate papers confess their worst fears about the concessions to Agrarians. Papers interpret the North German Gazette's inspired statement that the bill is only tentative and that the Reichstag circles EFTAON ETAOIN TAOI stag and Bundesrath may change it, as meaning that the government wishes moderation in agricultural duties. But information obtained by your correspondent from Reichstag circles is that the Reichstag is more than likely to make still greater increases in the bill. All signs indicate that heated agitation against the bill will break out throughout the country. Liberal papers say the bill can only make socialist votes.

Driving Accident on Front Street.

An accident occurred on Front street Saturday night in which Mr. and Mrs. Forbes, of Fourth street, were thrown on the pavement and somewhat shaken up. Mr. and Mrs. Forbes had been driving and stopped in front of Leonard's jewelry store with the horse and buggy standing diagonally across the street. Some girls came driving along and caught the rear wheel of Mr. Forbes' buggy on one of their wheels and turned the buggy on its side, which threw Mr. and Mrs. Forbes to the street. Mr. Forbes was the only one injured and his injury was nothing more than a bruised face.

Suspended by the Mayor.

Assistant Fire Chief Geo. Bell was suspended by Mayor Sykes on the charge of insubordination and neglect of rules. This action was taken by the Mayor to make legal the suspension of Bell by Chief Davis some days ago, and holds only until the case can be investigated by the Fire committee of the Council. It will be remembered that this matter was brought up at the last meeting of Council and the Solicitor decided that Davis had no right to suspend. This action of the Mayor makes it legal.

Weather Forecast.

Ohio—Fair, continued warm Sunday. Monday partly cloudy, probably local thunder storms; not so warm; light southerly winds becoming variable.

West Virginia—Fair, continued warm Sunday. Monday partly cloudy, probably showers, not so warm in western portion, southerly winds.
